# UBuild

## Simplifying construction insurance

UBuild enables you to provide quotes on most construction risks without manual intervention from CGU or underwriters.

### Available online

The tool is “Simpler, Smarter, Faster” and available anytime via the CGU Portal to all intermediaries.

### Intuitive questions

The system parameters are clearly detailed on the first section of the site, allowing you to assess at a glance if referral to an underwriter is required.

### Fast

Quoting takes a matter of minutes.

### Improved capabilities

The tool has improved online referral capabilities. Where a quote is referred, a CGU underwriter can now:

- Release the quote
- Decline the quote
- Impose conditions
- Override premiums

Once the quote has been accepted by the customer, UBuild also allows you to bind cover.

### Saves you time and money

UBuild reduces the costly administration involved in manual quoting, saving you time and money.

### CGU expertise

UBuild has been designed and built by a team of construction insurance experts ensuring it's a reliable resource for your business.

### Quoting and binding

There are two products this tool can be used for to obtain a quote – Single Project Construction insurance, including Owner Builders, and Annual Contract Works insurance.

The parameters of the tool are:

- standard building works including residential, commercial, industrial and institutional
- individual contract values up to \$5m and customers with annual building works turnover up to \$20m. Owner builders up to \$500,000
- construction periods of up to 18 months

Where the quote is outside these conditions you will be quickly referred to a CGU underwriter for manual handling.

Start using UBuild today by visiting the CGU Portal, or speak to your CGU Account Manager.

UBuild is another way CGU delivers expertise in construction insurance.
